

Expanding Horizons

- **PLN 85M for Cutting-Edge Research Facilities and Innovative Services** (founded from National Recovery Plan)
- **PLN 36M for "RNA and Cell Biology Platform for Research and Innovation in Medicine"** (RACE-PRIME project founded by FNP)
- **PLN 11M for basic research, including advancements in genome engineering methods** (grants founded by NCN, EMBO, NAWA)

Empowered by Funding

- **70+ scientific publications in reputed journals**
- Prof. Marta Międzyńska appointed **Co-Chair of EU-LIFE and Vice Chair of the EMBO Council** contributing to the leadership of life science organizations in Europe
- **Prime Minister's Award** for Prof. Marcin Nowotny
- **Minister of Science Award & PAS Prize** for the Team of Prof. Wojciech Pokrzywa
- **Herbert Reisner Prize** for Dr. Ewa Liszewska and Prof. Jacek Jaworski
- **7 scientific promotions:** 2 habilitations, 5 doctoral dissertations

Steering Progress in Life Sciences

Fostering Collaboration

- **The official inauguration of the Horizon Europe Teaming for Excellence: RACE project** aimed at transforming IIMCB into a world-class Center of Excellence in RNA and cell biology
- **Industry Day** bridging science and business to foster technology transfer
- **70+ scientific events** to share knowledge and inspire innovation

Showcasing Discoveries

- **250 media publications** of IIMCB's research in the traditional outlets
