

Open Science: Polish Perspective

Urszula Białek-Wyrzykowska, PhD

UNESCO Regional Consultation on Open Science for Eastern Europe
September 24th, 2020

Open Science in Poland

Ministry of Science
and Higher Education

Republic of Poland

- Recommendations published in 2015
 - „Directions for development of open access to publications and research data in Poland”
 - „Kierunki rozwoju otwartego dostępu do publikacji i wyników badań naukowych w Polsce”
- Coverage of Open Access costs for selected journals at a national level
- OpenAIRE Week, October 12-16th, 2020
- Open Access Week, October 19-25th, 2020

Open Science in Poland

National Science Center funding agency for basic research in Poland

- Co-founder of cOALition S: an initiative supporting full and immediate Open Access to research publications (Plan S)
- Driving force behind implementing Open Science policies in Poland
- Offers flexible financial incentives to facilitate Open Access to publications and research data (even after a grant ends)

Open Science at IIMCB

2018

- Funding for Open Science related actions received through the MOSaIC project (2.5 milion EUR, 2018-2023)

2019

- Institutional Open Access Policy
- Open Access Officer
- DMP templates and support

2020

- Agreement with the Interdisciplinary Centre for Mathematical and Computational Modelling (ICM), a leading data science facility in Central Europe based in the University of Warsaw
- Training for researchers

Open Science in MOSaIC

MOSaIC: MOlecular Signalling in Health and Disease - Interdisciplinary Centre of Excellence

- Establishment of the ERA Chairs Group
by Prof. Andrzej Dziembowski
- Enhancement of scientific and organizational management in the
IIMCB, including Open Science

MOSaIC project received funding
from the European Union's Horizon 2020
research and innovation programme
under grant agreement no 810425

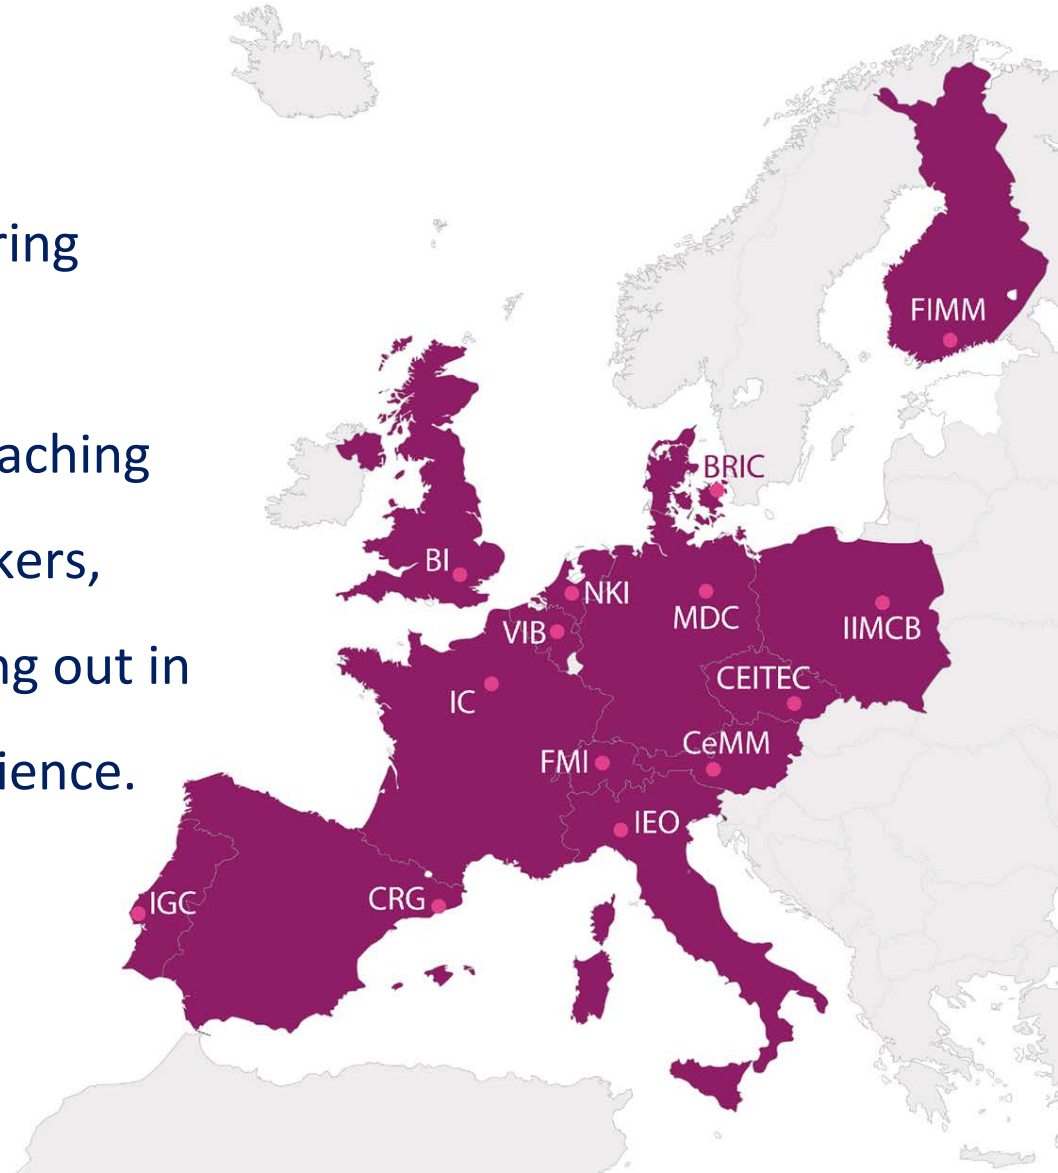

eulife

Partnership with EU-LIFE

EU-LIFE - a great platform for sharing knowledge, best practices, and reaching out to policy makers, including speaking out in favor of Open Science.

Challenges

National

- One information center that reaches out to researchers
- Raising awareness among researchers about the Open Science concept, demands and benefits
- Limited access to resources and infrastructures to deposit research data (institutional level)
- Professional institutional support for researchers, such as clear internal Open Access policies, Data Stewards

Global

- Unified understanding of the principles and benefits of Open Science

International Institute of Molecular and Cell Biology in Warsaw
